OTH -

The Ministry of Foreign Affairs presents its compliments to the Embassy of Japan and has the honour to refer to the training of Korean doctors in the field of the control of radiation injury (leukemia) in Japan under the assistance of the Japanese Government.

The Ministry wishes to bring the Embassy's attention to the fact that an official from the Embassy visited the Economic Affairs Bureau of the Ministry on February 3, 1969 and informed of the intention, of the Japanese Government to invite five Korean doctors for the afore-said training over a period of one month.

In this connection, the Ministry wishes to recommend the following candidates:

Name

Organization

Seoul National University Hospital

Kyungpook National University

Yonsei University

Radiological Research Institute

"

Attached herewith are the applications of the candidates.

The Ministry would be grateful if the Embassy would transmit these applications to the appropriate Japanese authorities for their favourable consideration.

The Ministry of Foreign Affairs avails itself of this opportunity to renew to the Embassy of Japan the assurances of its highest consideration.

Enclosure: As stated

May 2, 1969

Seoul
